# What is Troy Inu (TROY).?

TROY INU is the original MEME token for the exclusive digital art NFT platform TROY Nft Marketplace. The platform hosts digital artists from all over the world and offers its community the opportunity to score NFTs by staking their TROY tokens. As a utility of exchange the user can access a swap known as TROY SWAP which is used to print the NFT of their choice in the future. TROY SWAP can also be used to exchange Tokens on the Binance Smart Chain network.

# About TROY INU

## TROY INU

is a MEME token that has the character of a true invincible fighter, started out as a deep rooted, community-led project that quickly grew in popularity at the end of DeFi Summer '2022. TROY INU is the place for a resurgence in digital arts, largely in part from the enthusiastic community that formed around the project, educating participants in the crypto space about NFT. The project continues to thrive today with TROY NFT's ORIGINAL collection and going forward taking the work of world renowned artists and growing a collection of exciting collections that are rising on the platform every week.

# ROADMAPS

## ROAD MAP

### Phase 1

- - Website Launch
- - Stealth Launch
- - Audit, Whitepaper Release
- - 5k Holders & 10k Telegram group members
- - Marketing push
- - Create social Reddit

### Phase 2

- - TroySwap Launch
- - Troy NFT Marketplace Launch
- - CMC,CG listing
- - 10k Holders
- - Influencer

### Phase 3

- - NFT Marketplace
- - AMA with team
- - SOL, ETH, Polygon share market
- - 25k Holders
- - CEX listing

08

## What Makes TROY INU Unique?

Perhaps the most recognizable unique feature of TROY INU is its lack of utilities — it's purely for Holders doing classic DeFi activities, and there's no project behind it to provide built-in value.

However, like any meme token, its popularity has gone viral and the interaction will increase. Intrinsic value, therefore, becomes a genuine consideration for Holders.

Thus, TROY INU was developed so that the uniqueness of TROY NFTs and TROY tokens with utility will grow rapidly in the future.
